FULL-STACK APPRENTICE - RELIABLE CODE AND THOUGHTFUL UX

Email: impartinir@gmail.com **Location:** Herford, Germany **GitHub:** github.com/impartinir-dev

SUMMARY

Early-career full-stack developer focused on reliable web apps and supportive UX. Building and shipping production features during my apprenticeship (08/2023-11/2025), especially on Securepoint's DynDNS platform with Laravel, Vue, and MariaDB. Comfortable with CI/CD, testing, and Linux-first environments; looking for a team that values mentorship, good engineering habits, and pragmatic delivery.

SKILLS

Backend: Laravel, PHP, REST APIs, MariaDB, Redis
Frontend: Vue, Next.js, React, TypeScript, Tailwind, Motion/Framer
DevOps: Linux, Nginx, Docker, GitHub Actions, CI/CD, containers
Testing and Quality: PHPUnit, linting, DB testing, monitoring basics
Tools: zsh + Oh My Zsh, VS Code, tmux, Neovim, Figma, Git
Languages: German (C2), English (C1), French (A2), Russian (B2 speaking / A1 reading and writing)

PROJECTS

- SPDYN Webapp - Dynamic DNS platform**
Laravel, Vue, REST, DNS, CI/CD | Apprenticeship
- IPv4/IPv6 updates, token-based auth, update logs, and router/firewall integrations.
 - API-driven architecture with automated tests and GitHub Actions pipelines.
- Berichtsheftmanager - Training reports dashboard**
Svelte, Tailwind, TypeScript
- Week/day reports with filters, dashboards, templates, and offline persistence.
- LernjahrPro - Learning cockpit**
HTML, CSS, JavaScript
- 12-module roadmap, searchable compendium, design section, quizzes, flashcards, and weekly planner.
- Mnmwedding - Multilingual wedding site**
Next.js 14, Tailwind, Prisma, i18n
- Invite-gated routes, RSVP/guestbook/photo uploads, QR generator, dark mode, SQLite.
- Biomantic - UE5 survival prototype**
Unreal Engine 5
- Multiplayer evolution loop with biomass traits and 360-degree wall-climbing traversal.
- LaravelCollective HTML - Maintenance**
Laravel package
- Kept HTML/Form builders current through Laravel 11.

EXPERIENCE

- IT Specialist Apprentice (Application Development)** 08/2023 - 11/2025
Securepoint GmbH - Lueneburg (remote-friendly)
- Full-stack work on the Securepoint DynDNS platform (Laravel, Vue, MariaDB, Redis, REST APIs).
 - Implemented tests, linting, and GitHub Actions CI/CD to standardize delivery.
 - Collaborated on deployment flows, rollout plans, and ops checks in a Linux-first stack.
- Support and Logistics Assistant** 2022 - 2023 (6 months)
Meals on Wheels - Germany
- Supported daily delivery operations and customer communication.
- IT Training (Application Development)** 2020 - 2021
Bugenhagen Berufsbildungswerk
- Application development coursework; program paused for health reasons.
- Retail Assistant (Mini-job)** 07/2018 - 11/2018
NP-Markt - Germany
- Customer service and daily store operations support.

EDUCATION

- Fachinformatiker Apprenticeship (Application Development)** 08/2023 - 11/2025
BBS1 Lueneburg and Securepoint (dual)
- School part of Fachhochschulreife** 04/2016 - 01/2019
Heinrich-Buessing-Schule - Braunschweig
- Secondary Education** 08/2013 - 07/2015
Wilhelm-Raabe-Schule - Lueneburg
- Mittlere Reife** 07/2008 - 06/2013
Deutsche Schule Toulouse - France
